

- CYBERTOOTH - MONSTER PACK

The *Cybertooth Monster Pack* is compatible with the *King of Tokyo* and *King of New York* base games, and with all their expansions.

BERSERK MODE

The **Cybertooth Monster Pack** introduces a new game component: the **Berserk die!** You can use the Berserk die in your games even if you

play without Evolution cards or are not playing with Cybertooth.

- When you roll 4 or more , place a Berserk token on your Monster. You are now in Berserk mode!
- During your turn, if you are in Berserk mode, roll the Berserk die in the normal way, in addition to the other dice. You can re-roll it or set it aside, just like the other dice.

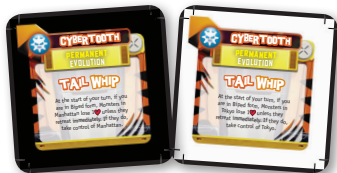

- If you are playing *King of Tokyo* and roll , lose 1 . If you are playing *King of New York*, resolve the effects of the die in the normal way.
- When you heal yourself, Berserk mode ends. Remove the Berserk token from your Monster.

EVOLUTION CARDS

Evolution cards let you play *King of Tokyo* and *King of New York* with boosted Monsters! Cybertooth Evolutions work in the same way as the Evolutions in *King of Tokyo: Power Up!* and *King of New York: Power Up!*

To play with Cybertooth Evolutions, you will need the *Power Up!* expansion for your base game.

BIPED FORM AND BEAST FORM

Cybertooth is a shape-shifting Monster. It can only Transform in games with Evolution cards.

Cybertooth begins the game with the Transformation card, Biped side up, and the Biped form figurine.

Once per turn, during the Power card purchase phase, Cybertooth may spend 1 ⚡ to flip the Transformation card before buying any cards. Replace the current card figurine with the other one and immediately apply the effects associated with the new form.

NOTE: If you want to play the Mutant Evolutions variant, all players take a Transformation card. You can download and print this card from our website: iello.com/download/cybertoothTransformationEN.pdf
